DIRECTOR GENERAL

NATIONAL TRANSPORT AND SAFETY AUTHORITY

SECTION B: INFORMATION TO CONSULTANTS

1. Introduction

- 1.1 The Client named in Appendix “A” will select a firm among those invited to submit a proposal, in accordance with the method of selection detailed under this section.

The consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in Appendix “A” for consulting services required for the assignment named in the said Appendix. *A Technical Proposal only may be submitted in assignments where the Client intends to apply standard conditions of engagement and scales of fees for professional services as is the case with Building and Civil Engineering Consulting services. In such a case the highest ranked firm of the technical proposal shall be invited to negotiate a contract on the basis of scale fees.* The proposal will be the basis for Contract negotiations and ultimately for a signed Contract with the selected firm.

The consultants must familiarize themselves with local conditions and take them into account in preparing their proposals. To obtain first hand information on the assignment and on the local conditions, consultants are encouraged to liaise with the Client regarding any information that they may require before submitting a proposal and to attend a pre-proposal conference where applicable. Consultants should contact the officials named in Appendix “A” to arrange for any visit or to obtain additional information on the pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.

The Client will provide the inputs specified in Appendix “A”, assist the firm in obtaining licenses and permits needed to carry out the services and make available relevant project data and reports.

Please note that (i) the costs of preparing the proposal and of negotiating the Contract, including any visit to the Client are not reimbursable as a direct cost of the assignment; and (ii) the Client is not bound to accept any of the proposals submitted.

2. Clarification and Amendment of RFP Document

- 2.1 Consultants may request a clarification of any of the RFP documents only up to seven [7] days before the proposal submission date. Any request for clarification must be sent in writing by papermail, cable, telex, facsimile or electronic mail to the Client’s address indicated in Appendix “A”. The Client will respond by cable, telex, facsimile or electronic mail to such requests and will send written copies of the response (including an explanation of the query but without identifying the source of inquiry) to all invited consultants who intend to submit proposals.

- 2.2 At any time before the submission of proposals, the Client may for any reason, whether at his own initiative or in response to a clarification requested by an invited firm, amend the RFP. Any amendment shall be issued in writing through addenda. Addenda shall be sent by mail, cable, telex or facsimile to all invited consultants and will be binding on them. The Client may at his discretion extend the deadline for the submission of proposals.
3. **Preparation of Proposal**
- 3.1 The Consultants proposal shall be written in English language.
- Technical Proposal**
- 3.2 In preparing the Technical Proposal, consultants are expected to examine the documents constituting this RFP in detail. Material deficiencies in providing the information requested may result in rejection of a proposal.
- 3.3 While preparing the Technical Proposal, consultants must give particular attention to the following:
- a. If a firm considers that it does not have all the expertise for the assignment, it may obtain a full range of expertise by associating with individual consultant(s) and/or other firms or entities in a joint venture or sub consultancy as appropriate. Consultants shall not associate with the other consultants invited for this assignment. Any firms associating in contravention of this requirement shall automatically be disqualified.
 - b. For assignments on a staff-time basis, the estimated number of professional staff-months is given in Appendix “A”. The proposal shall however be based on the number of professional staff- months estimated by the firm.
 - c. It is desirable that the majority of the key professional staff proposed be permanent employees of the firm or have an extended and stable working relationship with it.
 - d. Proposed professional staff must as a minimum, have the experience indicated in Appendix “A”, preferably working under conditions similar to those prevailing in Kenya.
 - e. Alternative professional staff shall not be proposed and only one Curriculum Vitae (CV) may be submitted for each position.
- 3.4 The Technical Proposal shall provide the following information using the attached Standard Forms;
- (i) A brief description of the firm’s organization and an outline of recent experience on assignments of a similar nature. For each assignment the outline should indicate *inter alia*, the profiles of the staff proposed, duration of the assignment, contract amount and firm’s involvement.
 - (ii) Any comments or suggestions on the Terms of Reference, a list of services and facilities to be provided by the Client.

- (iii) A description of the methodology and work plan for performing the assignment.
- (iv) The list of the proposed staff team by specialty, the tasks that would be assigned to each staff team member and their timing.
- (v) CVs must be recently signed by the proposed professional staff and the authorized representative submitting the proposal of not more than three pages. Key information should include number of years working for the firm/entity and degree of responsibility held in various assignments during the last ten (10) years.
- (vi) Estimates of the total staff input (professional and support staff staff-time) needed to carry out the assignment supported by bar chart diagrams showing the time proposed for each professional staff team member.
- (vii) A detailed description of the proposed methodology, staffing and monitoring of training, if Appendix “A” specifies training as a major component of the assignment.
- (viii) Any additional information requested in Appendix “A”.

3.5 The Technical Proposal shall not include any financial information.

Financial Proposal 3.6 In preparing the Financial Proposal, consultants are expected to take into account the requirements and conditions outlined in the RFP documents. The Financial Proposal should follow Standard Forms (Section D). It lists all costs associated with the assignment including;

- (a) remuneration for staff (in the field and at headquarters), and;
- (b) reimbursable expenses such as subsistence (per diem, housing), transportation (international and local, for mobilization and demobilization), services and equipment (vehicles, office equipment, furniture, and supplies), office rent, insurance, printing of documents, and training, if it is a major component of the assignment. If appropriate these costs should be broken down by activity.

3.7 The Financial Proposal should clearly identify as a separate amount, the local taxes, duties, fees, levies and other charges imposed under the law on the consultants, the sub-consultants and their personnel, unless Appendix “A” specifies otherwise.

3.8 Consultants shall express the price of their services in Kenya Shillings.

3.9 Commissions and gratuities, if any, paid or to be paid by consultants and related to the assignment will be listed in the Financial Proposal submission Form.

3.10

The Proposal must remain valid for 120 days after the submission date. During this period, the consultant is expected to keep available, at his own cost, the professional staff proposed for the assignment. The Client will make his best effort to complete negotiations within this period. If the Client wishes to extend the validity period of the proposals, the consultants who do not agree have the right not to extend the validity of their proposals.

4. Submission, Receipt and Opening of Proposals

4.1 The original proposal (Technical Proposal and, if required, Financial Proposal; see para. 1.2) shall be prepared in indelible ink. It shall contain no interlineations or overwriting, except as necessary to correct errors made by the firm itself. Any such corrections must be initialed by the persons or person authorised to sign the proposals.

4.2 For each proposal, the consultants shall prepare the number of copies indicated in Appendix "A". Each Technical Proposal and Financial Proposal shall be marked "**ORIGINAL**" or "**COPY**" as appropriate. If there are any discrepancies between the original and the copies of the proposal, the original shall govern.

4.3 **The bidder should submit one envelope bid " Combined technical and financial"**

The original and all copies of the Proposal shall be placed in a sealed envelope clearly marked "**COMBINED TECHNICAL AND FINANCIAL PROPOSAL,**" This envelope shall bear the submission address and other information indicated in Appendix "A" and be clearly marked : "**DO NOT OPEN, EXCEPT IN PRESENCE OF THE OPENING COMMITTEE.**"

4.4 The completed Technical and Financial Proposals must be delivered at the submission address on or before the time and date stated in Appendix "A". Any proposal received after the closing time for submission of proposals shall be returned to the respective consultant unopened.

4.5 After the deadline for submission of proposals, the Technical Proposal shall be opened immediately by the opening committee. The Financial Proposal shall remain sealed and deposited with a responsible officer of the client department until all submitted proposals are opened publicly.

5 Proposal Evaluation General

5.1 From the time the bids are opened to the time the Contract is awarded, if any consultant wishes to contact the Client on any matter related to his proposal, he should do so in writing at the address indicated in Appendix "A". Any effort by the firm to influence the Client in the proposal evaluation, proposal comparison or Contract award decisions may result in the rejection of the consultant's proposal.

5.2 Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded.

5.3

Evaluation of Technical Proposals

The Tender Processing Committee appointed by the Client shall evaluate the proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria as follows:-

	Points
(i) Firm's Specific experience related to the assignment	10
(ii) Comments on TOR	10
iii) Adequacy of the proposed workplan and methodology in responding to the terms of reference	30
iv) Qualifications and competence of the key staff for the assignment	50
Total Points	<u>100</u>

Each responsive proposal will be given a technical score (St). A proposal shall be rejected at this stage if it does not respond to important aspects of the Terms of Reference or if it fails to achieve the minimum technical score indicated in Appendix "A".

Public Opening and Evaluation of Financial Proposals

- 5.4 After Technical Proposal evaluation, the Client shall notify those consultants whose proposals did not meet the minimum qualifying mark or were considered non-responsive to the RFP and Terms of Reference, indicating that their Financial Proposals will be returned after completing the selection process. The Client shall simultaneously notify the consultants who have secured the minimum qualifying mark, indicating the date and time set for opening the Financial Proposals and stating that the opening ceremony is open to those consultants who choose to attend. The opening date shall not be sooner than seven (7) days after the notification date. The notification may be sent by registered letter, cable, telex, facsimile or electronic mail.
- 5.5 The Financial Proposals shall be opened publicly in the presence of the consultants' representatives who choose to attend.
- 5.6 The name of the consultant, the technical scores and the proposed prices shall be read aloud and recorded when the Financial Proposals are opened. The Client shall prepare minutes of the public opening.
- 5.7 The Tender Processing Committee will determine whether the financial proposals are complete (i.e. Whether the consultant has costed all the items of the corresponding Technical Proposal and correct any computational errors. The cost of any unpriced items shall be assumed to be included in other costs in the proposal. In all cases, the total price of the Financial Proposal as submitted shall prevail.
- 5.8 While comparing proposal prices between local and foreign firms participating in a selection process in financial evaluation of Proposals, firms incorporated in Kenya where indigenous Kenyans own 51% or more of the share capital shall be allowed a 10% preferential bias in proposal prices. However, there shall be no such preference in the technical evaluation of the tenders. Proof of local incorporation and citizenship shall be required before the provisions of this sub-clause are applied. Details of

such proof shall be attached by the Consultant in the financial proposal.

- 5.9 The formulae for determining the Financial Score (S_f) shall, unless an alternative formulae is indicated in Appendix “A”, be as follows:-

$$S_f = 100 \times F_m / F$$

where S_f is the financial score;

F_m is the lowest priced financial proposal and

F is the price of the proposal under consideration.

Proposals will be ranked according to their combined technical (S_t) and financial (S_f) scores using the weights (T =the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; $T + P = 1$) indicated in the Appendix.

The combined technical and financial score, S , is calculated as follows: - $S = S_t \times T \% + S_f \times P \%$. The firm achieving the highest combined technical and financial score will be invited for negotiations.

6. Negotiations

- 6.1 Negotiations will be held at the same address as “address to send information to the Client” indicated in Appendix “A”. The aim is to reach agreement on all points and sign a contract.
- 6.2 Negotiations will include a discussion of the Technical Proposal, the proposed methodology (work plan), staffing and any suggestions made by the firm to improve the Terms of Reference. The Client and firm will then work out final Terms of Reference, staffing and bar charts indicating activities, staff periods in the field and in the head office, staff-months, logistics and reporting. The agreed work plan and final Terms of Reference will then be incorporated in the “Description of Services” and form part of the Contract. Special attention will be paid to getting the most the firm can offer within the available budget and to clearly defining the inputs required from the Client to ensure satisfactory implementation of the assignment.
- 6.3 Unless there are exceptional reasons, the financial negotiations will not involve the remuneration rates for staff (no breakdown of fees).
- 6.4 Having selected the firm on the basis of, among other things, an evaluation of proposed key professional staff, the Client expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, the Client will require assurances that the experts will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the assignment. If this is not the case and if it is established that key staff were offered in the proposal without confirming their availability, the firm may be disqualified.
- 6.5 The negotiations will conclude with a review of the draft form of the Contract. To complete negotiations the Client and the selected firm will initial the agreed Contract. If negotiations fail, the Client

will invite the firm whose proposal received the second highest score to negotiate a contract.

7. Award of Contract 7.1 The Contract will be awarded following negotiations. After negotiations are completed, the Client will promptly notify other consultants on the shortlist that they were unsuccessful and return the Financial Proposals of those consultants who did not pass the technical evaluation.

7.2 The selected firm is expected to commence the assignment on the date and at the location specified in Appendix “A”.

8. Confidentiality 8.1 Information relating to evaluation of proposals and recommendations concerning awards shall not be disclosed to the consultants who submitted the proposals or to other persons not officially concerned with the process, until the winning firm has been notified that it has been awarded the Contract.

TERMS OF REFERENCE

DEVELOPMENT OF THE NATIONAL ROAD SAFETY ACTION PLAN (RSAP) 2017-2022 FOR THE NATIONAL TRANSPORT AND SAFETY AUTHORITY (NTSA)

1. INTRODUCTION

The National Transport and Safety Authority (NTSA) is a state corporation formed through National Transport and Safety Act 2012 (NTSA Act 2012). The NTSA functions are spelt out in **Section 4** of the Act which include to:

- a) advise and make recommendations on matters relating to road transport and safety,
- b) implement policies relating to road transport and safety,
- c) plan, manage and regulate the road transport sector in accordance with the provisions of the Act, and,
- d) ensure the provision of safe, reliable and efficient road transport service, and
- e) administer the Act of Parliament set out in the First Schedule and any other written Law

In addition to the above core functions NTSA is required to;

- i. Register and license motor vehicles;
- ii. Conduct motor vehicle inspections and certification;
- iii. Regulate public service vehicles;
- iv. Advise the Government (GoK) on national policy with regard to road transport system;
- v. Develop and implement road safety strategies; facilitate the education of the members of the public on road safety;
- vi. Conduct research and audits on road safety;
- vii. Compile inspection reports relating to traffic accidents;
- viii. Establish systems and procedures for, and oversee the training, testing and licensing of drivers; formulate and review the curriculum of driving schools;
- ix. Co-ordinate the activities of persons and organizations dealing in matters relating to road safety; and
- x. Perform such other functions as may be conferred on it by the Cabinet Secretary or by any other written law.

In order for NTSA to improve efficiency and effectiveness in the delivery of its functions, the Authority requires a clear and targeted Road Safety Action Plans to be developed that will help with future planning of road safety in Kenya and continuously provide the strategic direction for the NTSA .

One of the key planning tools to be developed and finalized by the NTSA is a National Road Safety Action Plan (RSAP). As part of a programme funded by the EU, the Institutional Capacity Building for Transport and Road Safety (ICBTRS) project reviewed the existing national five (5) year RSAP and prepared a new draft.

This draft now requires to be completed in consultation with all stakeholders in the field of road safety. The Draft Action plan 2015-2020 will through the consultant (expert) be critically be analyzed and proofread and subsequently validated by key stakeholders, published and launched. The NTSA will be responsible for overseeing the implementation of this Road safety Action Plan.

2. BACKGROUND TO THE TERMS OF REFERENCE FOR THE DEVELOPMENT OF THE ROAD SAFETY ACTION PLAN 2017-2022

In 2011 the United Nations launched the Decade of Action for Road Safety. The aim of the Decade of Action is to raise the awareness of road safety and to address the unacceptably high levels of death and serious injuries that result as a consequence of road traffic crashes. The target of the Decade of Action is to reduce road fatalities by 50% by the year 2020. Kenya is a signatory to the Decade of Action and is required to match the target to reduce fatalities by 50% by 2020. Globally road traffic crashes take the lives of nearly 1.24 million people every year and have become the leading cause of death for people aged 15–29 years. In Kenya, about 3,000 people die annually because of road traffic crashes. Many more are injured. Approximately half of all deaths on the country's roads are among pedestrians. There is an increasing trend of other vulnerable road users getting killed and injured in Kenyan roads.

In order to achieve a reduction of this magnitude requires considerable effort and commitment. The United Nations made a number of recommendations as to how this reduction can be achieved. Two of the key recommendations are to:

- Establish a lead authority that will take responsibility for the improvement in road safety
- Develop a Road Safety Strategy to manage the improvements in road safety

The National Transport and Safety Authority(NTSA) was subsequently established under the Ministry of Transport and Infrastructure, through an **Act of Parliament (NTSA Act 2012)** with the aim of harmonizing the operations of key road transport departments in Kenya and to effectively manage the road transport sub-sector; minimizing loss of lives through road crashes. NTSA is the lead Authority in matter road safety.

The NTSA endeavors to shift the road safety approach to a proactive and integrated approach. In order to actualize these approaches NTSA is developing a National Road Safety Action Plan (RSAP) as a key planning tool for a period of 5(five) years-2017-2022. The five year period will also coincide with the conclusion of the Decade of Action for Road Safety in 2020.The NTSA will be responsible for overseeing the implementation of this Road safety Strategy and associated Action Plan. The Action Plan includes a timetable for implementation, identification of budgets, identification of organizations responsible for implementation and M&E framework.

The Decade of Action developed five pillars of road safety:

- i. Road Safety Management
- ii. Safer roads and mobility
- iii. Safer vehicles
- iv. Safer road users
- v. Post-crash response

3. OBJECTIVES OF THE CONSULTANCY

The main purpose of the consultancy is to support with the finalization of the National Road Safety Action Plan (RSAP). A draft RSAP has been prepared, but needs to be finalized in consultation with road safety stakeholders. The RSAP is a fundamental planning tool for Road Safety in Kenya and will continuously provide the strategic direction for the NTSA road safety programmes.

4.0 DELIVERABLES FOR THE COMPLETION OF THE NATIONAL ROAD SAFETY ACTION PLAN

Specific Objectives

The specific deliverables of the consultancy are to:

1. Prepare a report on the current status of road safety performance in Kenya
2. Identifies baselines, defines results, and targets (key improvement points) for the RSAP 2015-2020
